

Magellan® Solutions Developer Kit

March 28, 2007

This certificate is the result of Thales Navigation Quality Analysis of the mapping product, hereafter called "Product" created by **Geosustavi**, a company based in **Croatia**, with Magellan Solutions Developer Kit (MSDK) version 1.26 for the coverage of the following areas:

- Croatia, topoHR_v2, v2.00
- Croatia, topoHR_v2.img, v2.00

The above map products were tested on the following Magellan GPS devices:

eXplorist 400	2.02
eXplorist 500	2.03
eXplorist 600	2.03
eXplorist XL (Luna)	1.05,1.55
CrossoverGPS (OD)	1.56, 1.66
Meridian Gold	5.40
Meridian Color	5.40

The following tests, as well as other more minor preliminary tests have been successfully passed by Thales Navigation Testing Group:

- Product derived from MSDK ([.img] and/or [.imi] files) does not cause any failure of any compatible Magellan GPS Units.
- Product contains database groups, including but not limited to roads, waterways, railroads, and parks, as well as "Point of Interest" (as defined below) categories ("POI"). Database groups and POIs have been properly labelled with their unique title or feature name. Points of Interest means categories of locations (such as restaurants, banks, gas stations, etc.)
- QuickInfo (as defined) function works properly. QuickInfo is the process of selecting a feature within the map and viewing its attribute information in a "pop up" window.
- Detailed maps database query have timely response and do not cause unit failure.
- Standard Magellan GPS Unit functions, including zoom, pan, select, query, etc. works properly.
- User data, such as Waypoints (as defined), User POIs, Routes, and Tracks, as created by an end user functions properly.

North America: 960 Overland Court San Dimas, CA 91773

Europe: Z.A.C. de la Fleuriaye B.P. 60433 44474 Carquefou Cedex France

- Both Alphabetic Search (database queries) and "Search by Nearest" (spatial queries) work properly and not cause any failure.

This certificate allows **Geosustavi** to use the Magellan Certified logo on the Product and Product packaging.

This certificate does not guarantee the accuracy of the Product content which must be checked by **Geosustavi** prior to its delivery to the end-users.
